

BARITAINER® DRUM

REPLACES LINED STEEL

ROT AND RUST RESISTANT

FDA, EU COMPLIANT

UN RATED Y

8FI A 'B BCJ 5H€B:

The Baritainer® POLY DRUM enables tremendous benefits: they are puncture resistant and do not rust or dent. Denting of steel drums might flake off the lining and potentially damage the valuable liquid products contained therein. Baritainer® POLY DRUMS are more weather resistant than steel and will neither rot nor decompose in wet weather. And, Baritainer® POLY DRUMS are FDA and EU Compliant.

9BJ F CBA 9BH5@'B BCJ 5H€B.

The Baritainer® POLY DRUM is environmentally safe and recyclable. They provide permeation barrier functionality without the environmental risk of fluorine gas and the limits of recycling multi-layer EVOH containers. NO PFAS and PFOS Human Exposure. And because they are made from a KORTRAX® BR/HDPE Mono-Layer Mixture, Baritainer® POLY DRUMS have a 56% smaller carbon footprint vs. steel drums.
